How does NEC use cookies?

Cookies are small text files that we transfer to your device to enable our systems to recognise your computer and to provide our services. Our cookies will not harm your system and will not record your personal information.

Cookies allow you to take advantage of NEC's essential features. For instance if you block or otherwise reject our cookies, you will not be able to enrol on courses, proceed to Checkout or use NEC Learning Management System.

If you disable cookies and/or javascript you will still be able to navigate and read the website but some of the features and visuals may not work as we intended.

We use Google Analytics cookies to store information, such as the time that the current visit occurred, whether the visitor has been to the site before and what site referred the visitor to the web page. It helps us understand how visitors engage with the website so that we can improve it. These collect information anonymously and report website trends without identifying individual visitors.

We also use a cookie to record the fact that you have agreed to our cookie policy otherwise the notification with show on each page and each visit to our site.

By accepting our cookie warning and visiting The National Extension College websites with your browser settings adjusted to accept cookies tells us that you want to use The National Extension College's products and services and that you consent to our use of cookies and other technologies to provide them to you as described in this notice and in our privacy policy.

The Help feature on most browsers will tell you how to prevent your browser from accepting new cookies, how to have the browser notify you when you receive a new cookie and how to disable cookies altogether. Additionally, you can disable or delete similar data used by browser add-ons, such as Flash cookies, by changing the add-on's settings or visiting the website of its manufacturer.
