

National Extension College

Virtual Open Event

Tuesday 24 February 2026, 1pm-2pm

Study when, where and how you like

At NEC, we've been delivering high-quality distance learning for over 60 years. We specialise in offering access to essential qualifications like GCSE and A levels through innovative online learning solutions.

Our ethos is rooted in flexible, student-centred education that is accessible to all — no matter what a student's life-stage, background or circumstance.

You might be:

- home educating a child seeking flexible GCSE or A level options
- a student looking to improve grades to meet University requirements
- the parent or guardian of a child finding school attendance difficult
- a sports professional needing to fit study options around a training schedule
- or, considering a career change that requires additional qualifications

NEC's learning options put you in the driving seat

Meet the team at this virtual event and find out:

- how NEC online learning works
- our range of courses, including one year Structured GCSEs and Fast Track A levels
- pastoral care and NEC's 'Wellbeing for Learning' Programme
- support for the under 18s and students with additional needs
- exam booking service, exam advice and past paper marking
- NEC's UCAS service with support for applications and career progression

Plus, there will be plenty of opportunity to ask questions and hear about our current students' experience.
